| Section                                                      | Page |
|--------------------------------------------------------------|------|
| 1 Executive Summary .....                                    | 1    |
| 1.1 INTRODUCTION .....                                       | 1    |
| 1.2 PMMA TECHNOLOGY .....                                    | 2    |
| 1.3 PROCESS ECONOMICS.....                                   | 3    |
| 2 Introduction.....                                          | 4    |
| 2.1 BACKGROUND.....                                          | 4    |
| 2.2 PMMA VALUE CHAIN.....                                    | 5    |
| 2.3 PMMA TYPES AND GRADES .....                              | 7    |
| 2.4 OVERVIEW OF PMMA PRODUCTION PROCESSES .....              | 8    |
| 2.5 MAJOR PRODUCERS, TECHNOLOGY HOLDERS, AND LICENSORS ..... | 10   |
| 2.6 INDUSTRY STRUCTURE AND BUSINESS DEVELOPMENTS .....       | 13   |
| 2.7 STRATEGIC AND BUSINESS CONSIDERATIONS .....              | 15   |
| 2.8 INTEGRATION OF MMA AND PMMA.....                         | 16   |
| 3 Chemistry .....                                            | 17   |
| 3.1 OVERVIEW OF CHEMISTRY .....                              | 17   |
| 3.2 POLYMERIZATION MECHANISMS .....                          | 19   |
| 3.2.1 Free-Radical Polymerization .....                      | 19   |
| 3.2.2 Anionic Polymerization .....                           | 20   |
| 3.2.3 Copolymerization.....                                  | 20   |
| 3.3 DEPOLYMERIZATION MECHANISMS .....                        | 21   |
| 3.4 PHYSICAL AND THERMODYNAMIC PROPERTIES .....              | 22   |
| 3.5 HEALTH HAZARDS, ENVIRONMENTAL AND REGULATORY ISSUES..... | 24   |
| 4 General Process Descriptions.....                          | 25   |
| 4.1 INTRODUCTION.....                                        | 25   |
| 4.2 GENERAL PROCESS TECHNOLOGY .....                         | 26   |
| 4.2.1 Mass Polymerization .....                              | 26   |
| 4.2.2 Solution Polymerization.....                           | 29   |
| 4.2.3 Suspension Polymerization.....                         | 31   |

|       |                                                                              |    |
|-------|------------------------------------------------------------------------------|----|
| 4.2.4 | Emulsion Polymerization .....                                                | 34 |
| 4.3   | PMMA RESIN PROCESSING AND DOWNSTREAM FABRICATION .....                       | 36 |
| 4.3.1 | Batch Cell Cast Sheet .....                                                  | 37 |
| 4.3.2 | Continuous Cast Sheet - Batch Syrup Polymerization.....                      | 40 |
| 4.3.3 | Continuous Sheet Extrusion.....                                              | 40 |
| 4.3.4 | Thermoformed Sheets.....                                                     | 43 |
| 4.3.5 | Injection Molding .....                                                      | 43 |
| 5     | Commercial Technologies.....                                                 | 46 |
| 5.1   | INTRODUCTION.....                                                            | 46 |
| 5.2   | COMMERCIAL TECHNOLOGIES .....                                                | 47 |
| 5.2.1 | Mitsubishi Continuous Mass Polymerization.....                               | 47 |
| 5.2.2 | Sumitomo Continuous Mass Polymerization .....                                | 50 |
| 5.2.3 | Maxiglas Continuous Solution Process.....                                    | 53 |
| 5.2.4 | Evonik Batch Suspension Process .....                                        | 56 |
| 5.2.5 | Asahi Kasei .....                                                            | 58 |
| 6     | Process Economics.....                                                       | 62 |
| 6.1   | PMMA PROCESS ECONOMICS INTRODUCTION .....                                    | 62 |
| 6.2   | COSTING BASIS .....                                                          | 64 |
| 6.2.1 | Investment Basis .....                                                       | 64 |
| 6.2.2 | Pricing Basis.....                                                           | 64 |
| 6.2.3 | Cost of Production Basis .....                                               | 65 |
| 6.3   | COST OF PRODUCTION ESTIMATES.....                                            | 66 |
| 6.3.1 | Cost of Production for PMMA via Mitsubishi Continuous Mass Process .....     | 66 |
| 6.3.2 | Cost of Production for PMMA via Sumitomo Continuous Mass Process.....        | 70 |
| 6.3.3 | Cost of Production for PMMA via Maxiglas Continuous Solution Process ..      | 74 |
| 6.3.4 | Cost of Production for PMMA via Evonik Suspension Process .....              | 78 |
| 6.3.5 | Cost of Production for PMMA via Asahi Kasei Continuous Mass<br>Process ..... | 82 |
| 6.4   | COMPARATIVE ANALYSIS .....                                                   | 86 |
| 7     | Commercial Applications.....                                                 | 87 |
| 7.1   | PMMA APPLICATIONS BY FABRICATION PROCESS .....                               | 87 |
| 7.1.1 | Cast and Extruded Sheet .....                                                | 87 |
| 7.1.2 | Molding Resin.....                                                           | 88 |
| 7.2   | PMMA APPLICATIONS BY SECTOR .....                                            | 90 |
| 7.2.1 | Advertising.....                                                             | 90 |
| 7.2.2 | Appliances.....                                                              | 91 |
| 7.2.3 | Automotive, Aviation, and Transportation .....                               | 92 |
| 7.2.4 | Construction .....                                                           | 93 |
| 7.2.5 | Electronics and Electrical .....                                             | 94 |
| 7.2.6 | Sanitary-ware .....                                                          | 96 |

|       |                                                  |     |
|-------|--------------------------------------------------|-----|
| 7.2.7 | Homeware .....                                   | 96  |
| 7.3   | PMMA SPECIALITY APPLICATIONS .....               | 97  |
| 7.3.1 | Copolymers .....                                 | 97  |
| 7.3.2 | Surface Coatings.....                            | 98  |
| 7.3.3 | Enhanced Heat Resistance.....                    | 99  |
| 7.3.4 | Enhanced Impact Resistance .....                 | 99  |
| 7.3.5 | Medical, Pharmaceutical, and Personal Care ..... | 100 |
| 7.3.6 | Polymer Modifiers.....                           | 101 |
| 7.3.7 | Compounding .....                                | 102 |
| 8     | Market Analysis .....                            | 103 |
| 8.1   | GLOBAL .....                                     | 103 |
| 8.1.1 | Consumption .....                                | 103 |
| 8.1.2 | Supply .....                                     | 105 |
| 8.1.3 | Supply, Demand, and Trade .....                  | 106 |
| 8.2   | NORTH AMERICA .....                              | 108 |
| 8.2.1 | Consumption .....                                | 108 |
| 8.2.2 | Supply .....                                     | 108 |
| 8.2.3 | Supply, Demand, and Trade .....                  | 109 |
| 8.3   | WESTERN EUROPE .....                             | 110 |
| 8.3.1 | Consumption .....                                | 110 |
| 8.3.2 | Supply .....                                     | 111 |
| 8.3.3 | Supply, Demand, and Trade .....                  | 113 |
| 8.4   | ASIA .....                                       | 114 |
| 8.4.1 | Consumption .....                                | 114 |
| 8.4.2 | Supply .....                                     | 115 |
| 8.4.3 | Supply, Demand, and Trade .....                  | 118 |
| 9     | Glossary .....                                   | 119 |
| 10    | References .....                                 | 120 |

| Appendix |                                                                     | Page |
|----------|---------------------------------------------------------------------|------|
| A        | Definition of Capital Cost Terms Used in Process Economics .....    | A-1  |
| B        | Definitions of Operating Cost Terms Used in Process Economics ..... | B-1  |
| C        | PERP Program Title Index (2007 - 2017) .....                        | C-1  |

| Figure                                                              | Page |
|---------------------------------------------------------------------|------|
| 1.1 General Structure of PMMA .....                                 | 1    |
| 1.2 PMMA Cost of Production Comparison .....                        | 3    |
| 2.1 General Structure of PMMA .....                                 | 4    |
| 2.2 PMMA Value Chain .....                                          | 5    |
| 2.3 Global PMMA Capacity Share by Region, 2017 .....                | 10   |
| 2.4 Global PMMA Capacity Share by Producer, 2017 .....              | 11   |
| 3.1 MMA Polymerization .....                                        | 17   |
| 3.2 PMMA Stereochemistry.....                                       | 18   |
| 3.3 Free Radical Polymerization Mechanism.....                      | 19   |
| 3.4 Depolymerization Mechanisms .....                               | 21   |
| 3.5 Engineering Polymer Performance Pyramid .....                   | 22   |
| 4.1 Typical Continuous Mass Polymerization Block Flow Diagram ..... | 27   |
| 4.2 PMMA Solution Polymerization (MMA/EAE/HEMA) .....               | 30   |
| 4.3 PMMA Solution Polymerization (MMA/EAE).....                     | 32   |
| 4.4 PMMA Suspension Polymerization Process.....                     | 33   |
| 4.5 PMMA Emulsion Polymerization Process .....                      | 35   |
| 4.6 PMMA Batch Cell Cast Sheet Block Flow Diagram .....             | 38   |
| 4.7 PMMA Cast Sheet Technology .....                                | 39   |
| 4.8 PMMA Continuous Batch Syrup.....                                | 41   |
| 4.9 Sheet Extrusion Line Layout .....                               | 42   |
| 4.10 Description of the Injection Molding Process .....             | 45   |
| 5.1 Mitsubishi Continuous Mass Process .....                        | 49   |
| 5.2 Sumitomo Continuous Mass Process .....                          | 51   |
| 5.3 Maxiglas Continuous Mass Process .....                          | 54   |
| 5.4 Evonik Batch Suspension Process .....                           | 57   |
| 5.5 Asahi Continuous Mass Process .....                             | 59   |
| 5.6 Asahi Suspension Process.....                                   | 61   |
| 6.1 PMMA Cost of Production Comparison .....                        | 63   |
| 6.2 Cost of Production Comparison by Producer and Region .....      | 86   |
| 7.1 Diagram of Optic Fiber .....                                    | 95   |
| 8.1 Global Demand Share by Region .....                             | 103  |
| 8.2 Global Demand Share by Region .....                             | 104  |
| 8.3 Global PMMA Capacity by Region.....                             | 105  |
| 8.4 Global PMMA Capacity Additions .....                            | 106  |

|      |                                                          |     |
|------|----------------------------------------------------------|-----|
| 8.5  | Global PMMA Supply and Demand Balance .....              | 107 |
| 8.6  | Global PMMA Net Trade Pattern .....                      | 107 |
| 8.7  | North American PMMA Resin Market Segmentation 2017 ..... | 108 |
| 8.8  | North America PMMA Supply and Demand Balance.....        | 110 |
| 8.9  | Western Europe PMMA Resin Market Segmentation 2017 ..... | 111 |
| 8.10 | Western Europe PMMA Supply and Demand Balance.....       | 113 |
| 8.11 | Asia Pacific PMMA Resin Market Segmentation 2017 .....   | 114 |
| 8.12 | Asia Pacific PMMA Supply and Demand Balance .....        | 118 |
| 8.13 | China PMMA Supply and Demand Balance .....               | 118 |

| Table                                                                                          | Page |
|------------------------------------------------------------------------------------------------|------|
| 2.1 Global PMMA Top 20 Producers .....                                                         | 11   |
| 2.2 Technology Licensing Projects and Joint Ventures .....                                     | 12   |
| 2.3 Major Players by Region .....                                                              | 13   |
| 2.4 Strategic/Business Considerations .....                                                    | 15   |
| 3.1 Physical Property Comparisons of Selected Clear Polymers .....                             | 23   |
| 4.1 Key Process Routes for Production of MMA.....                                              | 25   |
| 4.2 PMMA Extruded Sheet Techniques .....                                                       | 37   |
| 5.1 General PMMA Polymerization Process Features by Producer .....                             | 46   |
| 6.1 PMMA Cost of Production Comparison .....                                                   | 62   |
| 6.2 Prices of Raw Materials, Products and Labor .....                                          | 65   |
| 6.3 Cost of Production for PMMA<br>Process: Mitsubishi Continuous Mass; USGC .....             | 67   |
| 6.4 Cost of Production for PMMA<br>Process: Mitsubishi Continuous Mass; Western Europe .....   | 68   |
| 6.5 Cost of Production for PMMA<br>Process: Mitsubishi Continuous Mass; China .....            | 69   |
| 6.6 Cost of Production for PMMA<br>Process: Sumitomo Continuous Mass; USGC .....               | 71   |
| 6.7 Cost of Production for PMMA<br>Process: Sumitomo Continuous Mass; Western Europe .....     | 72   |
| 6.8 Cost of Production for PMMA<br>Process: Sumitomo Continuous Mass; China.....               | 73   |
| 6.9 Cost of Production for PMMA<br>Process: Maxiglas Continuous Solution; USGC .....           | 75   |
| 6.10 Cost of Production for PMMA<br>Process: Maxiglas Continuous Solution; Western Europe..... | 76   |
| 6.11 Cost of Production for PMMA<br>Process: Maxiglas Continuous Solution; China .....         | 77   |
| 6.12 Cost of Production for PMMA<br>Process: Evonik Suspension; USGC .....                     | 79   |
| 6.13 Cost of Production for PMMA<br>Process: Evonik Suspension; Western Europe.....            | 80   |
| 6.14 Cost of Production for PMMA<br>Process: Evonik Suspension; China .....                    | 81   |
| 6.15 Cost of Production for PMMA<br>Process: Asahi Kasei Continuous Mass Process; USGC .....   | 83   |
| 6.16 Cost of Production for PMMA<br>Process: Asahi Kasei Continuous Mass; Western Europe ..... | 84   |

|      |                                                     |     |
|------|-----------------------------------------------------|-----|
| 6.17 | Cost of Production for PMMA                         |     |
|      | Process: Asahi Kasei Continuous Mass; China .....   | 85  |
| 7.1  | Comparison Cast versus Extruded Acrylic Sheet ..... | 87  |
| 7.2  | Cast and Extruded PMMA Sheet Applications .....     | 88  |
| 7.3  | PMMA Resin Applications .....                       | 89  |
| 7.4  | PMMA Alloys and Blends .....                        | 102 |
| 8.1  | Global PMMA Demand by Region .....                  | 104 |
| 8.2  | North American PMMA Capacity .....                  | 109 |
| 8.3  | Western European PMMA Capacity .....                | 112 |
| 8.4  | Asia Pacific PMMA Capacity .....                    | 115 |

# Nexant Thinking™

## Process Evaluation/Research Planning

The NexantThinking™ Process Evaluation/Research Planning (PERP) program is recognized globally as the industry standard source for information relevant to the chemical process and refining industries. PERP reports are available as a subscription program or on a single report basis.

### Contact Details:

#### Americas:

Marcos Nogueira Cesar, Vice President, Global Products, E&CA: Nexant Thinking™  
Phone: + 1-914-609-0324, e-mail: mcesar@nexant.com

Erica Hill, Client Services Coordinator, E&CA-Products  
Phone: + 1-914-609-0386, e-mail: ehill@nexant.com

#### EMEA:

Anna Ibbotson, Director, NexantThinking  
Phone: +44-207-950-1528, aibbotson@nexant.com

#### Asia:

Chommanad Thammanayakatip, Managing Consultant, Energy & Chemicals Advisory  
Phone: +66-2793-4606, email: chommanadt@nexant.com

Nexant, Inc. (www.nexant.com) is a leading management consultancy to the global energy, chemical, and related industries. For over 38 years, Nexant has helped clients increase business value through assistance in all aspects of business strategy, including business intelligence, project feasibility and implementation, operational improvement, portfolio planning, and growth through M&A activities. Nexant has its main offices in San Francisco (California), White Plains (New York), and London (UK), and satellite offices worldwide.
