|       |                                                                                                 |    |
|-------|-------------------------------------------------------------------------------------------------|----|
| 1     | Executive Summary .....                                                                         | 1  |
| 1.1   | Introduction.....                                                                               | 1  |
| 1.2   | Technology Overview .....                                                                       | 1  |
| 1.3   | Strategic and Business Considerations .....                                                     | 2  |
| 1.4   | Economic Analysis.....                                                                          | 3  |
| 1.5   | Market Analysis .....                                                                           | 4  |
| 1.5.1 | End-Use Applications.....                                                                       | 4  |
| 1.5.2 | Supply and Demand Analysis.....                                                                 | 5  |
| 2     | Introduction .....                                                                              | 7  |
| 2.1   | Overview .....                                                                                  | 7  |
| 2.2   | Value Chain.....                                                                                | 7  |
| 2.3   | Technology Developments.....                                                                    | 8  |
| 2.4   | Technology Holders and Licensing Status.....                                                    | 10 |
| 2.5   | Strategic and Business Considerations .....                                                     | 10 |
| 2.6   | Physical and Thermodynamic Properties .....                                                     | 11 |
| 2.7   | Specifications .....                                                                            | 12 |
| 2.8   | Health Hazards.....                                                                             | 12 |
| 2.9   | Storage and Transportations.....                                                                | 12 |
| 3     | Commercial Technologies .....                                                                   | 13 |
| 3.1   | Introduction.....                                                                               | 13 |
| 3.2   | Acetone Cyanohydrin Route .....                                                                 | 16 |
| 3.2.1 | Background and Chemistry .....                                                                  | 16 |
| 3.2.2 | Acetone Cyanohydrin Production .....                                                            | 21 |
| 3.2.3 | Hydrolysis and Esterification of ACH .....                                                      | 23 |
| 3.2.4 | Methyl Methacrylate Product Recovery and Purification.....                                      | 25 |
| 3.2.5 | Sulfuric Acid Recovery .....                                                                    | 27 |
| 3.3   | Isobutylene (or Tertiary Butyl Alcohol) Gas-Phase Oxidation Route.....                          | 30 |
| 3.3.1 | Background and Sources of Isobutylene (i-C <sub>4</sub> ) and Tertiary Butyl Alcohol (TBA)..... | 30 |

|       |                                                                               |     |
|-------|-------------------------------------------------------------------------------|-----|
| 3.3.2 | Chemistry of Isobutylene Route .....                                          | 31  |
| 3.3.3 | Oxidation of Isobutylene .....                                                | 33  |
| 3.3.4 | Methacrylic Acid Recovery .....                                               | 35  |
| 3.3.5 | Methacrylic Acid Esterification and Methyl Methacrylate Recovery .....        | 37  |
| 3.3.6 | Tertiary-Butyl Alcohol Route .....                                            | 39  |
| 3.4   | Lucite's Alpha Process .....                                                  | 40  |
| 3.4.1 | Background .....                                                              | 40  |
| 3.4.2 | Chemistry .....                                                               | 40  |
| 3.4.3 | Process Description .....                                                     | 47  |
| 3.5   | Other Commercial Routes .....                                                 | 52  |
| 3.5.1 | BASF Route .....                                                              | 52  |
| 3.5.2 | Asahi Kasei Corporation "Direct Oxidative Esterification (DOE)" Route .....   | 54  |
| 3.5.3 | Mitsubishi Gas Chemical HCN Recycle Route .....                               | 54  |
| 3.6   | Environmental Issues .....                                                    | 57  |
| 4     | Developing Technologies .....                                                 | 59  |
| 4.1   | Evonik .....                                                                  | 59  |
| 4.1.1 | AVENEER® Process .....                                                        | 59  |
| 4.1.2 | LiMA® Process .....                                                           | 60  |
| 4.2   | Biotechnology/Green Chemistry .....                                           | 65  |
| 4.2.1 | Biomass Gasification for Syngas and Methanol Production .....                 | 67  |
| 4.2.2 | ABE Fermentation of Sugar for Acetone Production .....                        | 67  |
| 4.2.3 | Fermentation of Sugar for Isobutylene Production .....                        | 71  |
| 4.2.4 | Ethanol Dehydration for Ethylene Production .....                             | 71  |
| 4.2.5 | Other Developments in Bio-MMA .....                                           | 73  |
| 5     | Process Economics .....                                                       | 75  |
| 5.1   | Costing Basis .....                                                           | 75  |
| 5.1.1 | Investment Basis .....                                                        | 75  |
| 5.1.2 | Pricing Basis .....                                                           | 75  |
| 5.1.3 | Cost of Production Basis .....                                                | 77  |
| 5.2   | Production Cost Estimates .....                                               | 78  |
| 5.2.1 | Cost of Producing MMA via the ACH Route .....                                 | 78  |
| 5.2.2 | Cost of Producing MMA via the Isobutylene (i-C <sub>4</sub> ) Route .....     | 85  |
| 5.2.3 | Cost of Producing MMA via the TBA Route .....                                 | 90  |
| 5.2.4 | Cost of Producing MMA via Lucite's Alpha Route .....                          | 91  |
| 5.2.5 | Cost of Producing MMA via Asahi's Direct Oxidative Esterification Route ..... | 91  |
| 5.2.6 | Cost of Producing MMA via the MGC HCN Recycle Route .....                     | 95  |
| 5.2.7 | Cost of Producing MMA via BASF's Route .....                                  | 95  |
| 5.3   | Comparison of Commercial Processes to Produce MMA .....                       | 98  |
| 5.4   | Sensitivity Analysis .....                                                    | 105 |
| 5.4.1 | Sensitivity to Economy of Scale .....                                         | 106 |
| 5.4.2 | Sensitivity to Feed Pricing .....                                             | 106 |
| 5.4.3 | Evonik's Aveneer Route .....                                                  | 108 |

|       |                                                                      |     |
|-------|----------------------------------------------------------------------|-----|
| 5.4.4 | ACH Route versus Isobutylene Route Historical Capacity Analysis..... | 108 |
| 5.4.5 | Historical Analysis of MMA Cash Cost of Production.....              | 109 |
| 6     | Commercial Applications .....                                        | 111 |
| 7     | Regional Market Analysis .....                                       | 113 |
| 7.1   | Global Overview .....                                                | 113 |
| 7.1.1 | Demand .....                                                         | 113 |
| 7.1.2 | Supply.....                                                          | 114 |
| 7.1.3 | Supply, Demand, and Trade.....                                       | 115 |
| 7.2   | North America.....                                                   | 116 |
| 7.2.1 | Demand .....                                                         | 116 |
| 7.2.2 | Supply.....                                                          | 117 |
| 7.2.3 | Supply, Demand, and Trade.....                                       | 118 |
| 7.3   | Europe.....                                                          | 119 |
| 7.3.1 | Demand .....                                                         | 119 |
| 7.3.2 | Supply.....                                                          | 120 |
| 7.3.3 | Supply, Demand, and Trade.....                                       | 121 |
| 7.4   | Asia Pacific.....                                                    | 122 |
| 7.4.1 | Demand .....                                                         | 122 |
| 7.4.2 | Supply.....                                                          | 123 |
| 7.4.3 | Supply, Demand, and Trade.....                                       | 125 |
| 7.5   | Rest of the World.....                                               | 126 |
| 7.5.1 | Demand .....                                                         | 126 |
| 7.5.2 | Supply.....                                                          | 127 |
| 7.5.3 | Supply, Demand, and Trade.....                                       | 128 |
| 8     | Glossary.....                                                        | 130 |

## Appendices

|   |                                                                    |     |
|---|--------------------------------------------------------------------|-----|
| A | Supporting Cost of Production Estimates.....                       | 134 |
| B | Definitions of Capital Cost Terms Used in Process Economics .....  | 151 |
| C | Definitions of Operating Cost Terms Used in Process Economics..... | 155 |
| D | TECH Program Title Index (2008-2018).....                          | 158 |
| E | References .....                                                   | 163 |

## Figures

|           |                                                                                            |     |
|-----------|--------------------------------------------------------------------------------------------|-----|
| Figure 1  | Summary of MMA Production Costs.....                                                       | 3   |
| Figure 2  | Global MMA Demand by End-Use, 2017 .....                                                   | 5   |
| Figure 3  | Global MMA Supply/Demand and Trade Balance.....                                            | 6   |
| Figure 4  | Methyl Methacrylate Value Chain.....                                                       | 7   |
| Figure 5  | Routes to MMA.....                                                                         | 9   |
| Figure 6  | MMA via ACH Process - ACH Production and Purification.....                                 | 22  |
| Figure 7  | MMA via ACH Process - Hydrolysis and Esterification.....                                   | 24  |
| Figure 8  | MMA via ACH Process - Product Recovery and Purification.....                               | 26  |
| Figure 9  | Sulfuric Acid Recovery.....                                                                | 28  |

## TECHNOLOGY & COSTS

### Technoeconomics - Energy & Chemicals (TECH) Methyl Methacrylate (MMA)

The Nexant Subscriptions' Technoeconomics - Energy & Chemicals (TECH) program is recognized globally as the industry standard source for information relevant to the chemical process and refining industries. Technoeconomics - Energy & Chemicals (TECH) reports are available as a subscription program or on a single report basis.

#### Contact Details:

##### Americas:

Marcos Nogueira Cesar, Vice President, Global Products, E&CA: Nexant Subscriptions  
Phone: + 1-914-609-0324, e-mail: mcesar@nexant.com

Erica Hill, Client Services Coordinator, E&CA-Products  
Phone: + 1-914-609-0386, e-mail: ehill@nexant.com

##### EMEA:

Anna Ibbotson, Director, Nexant Subscriptions

##### Asia:

Chommanad Thammanayakatip, Managing Consultant, Energy & Chemicals Advisory  
Phone: +66-2793-4606, email: chommanadt@nexant.com

Nexant, Inc. ([www.nexant.com](http://www.nexant.com)) is a leading management consultancy to the global energy, chemical, and related industries. For over 38 years, Nexant has helped clients increase business value through assistance in all aspects of business strategy, including business intelligence, project feasibility and implementation, operational improvement, portfolio planning, and growth through M&A activities. Nexant has its main offices in San Francisco (California), White Plains (New York), and London (UK), and satellite offices worldwide.
