1	Executive Summary	1
2	Business Overview	5
2.1	Introduction.....	5
2.2	Historical Development	9
2.3	Business Development.....	10
2.3.1	Polyurethane Raw Materials	12
2.3.2	Polyurethane Systems	14
2.3.3	Polyurethane Processing	16
2.3.4	Processing Equipment	19
2.4	Intellectual Property Development	20
2.5	Barriers to Entry	25
2.6	Properties and Hazards.....	27
2.7	Handling and Storage.....	31
2.8	Regulatory Developments	32
3	Feedstocks	34
3.1	Isocyanates	34
3.1.1	Toluene Diisocyanate (TDI)	34
3.1.2	Methylene Diphenyl Diisocyanate (MDI)	36
3.1.3	Aliphatic Diisocyanates (ADI)	38
3.2	Polyols	40
3.2.1	Polyether Polyols.....	41
3.2.2	Polyester Polyols.....	43
3.3	Prepolymers	45
3.4	Additives	47
3.5	Raw Material Properties	51
4	Polyurethane Technology.....	53
4.1	Chemistry	53
4.1.1	Overview	53
4.1.2	Key Side Reactions	54
4.1.3	Polymer Structure.....	56

4.1.4	Isocyanate Polymerization	57
4.2	Key Terms	59
4.3	Polyurethane Definitions	60
4.4	Polyurethane Systems	61
4.4.1	Introduction.....	61
4.4.2	Polyurethane System Formulations	61
4.5	Polyurethane Processing	82
4.5.1	Slabstock.....	83
4.5.2	Discontinuous Foaming.....	86
4.5.3	Molding.....	86
4.5.4	On-site Foaming.....	91
4.5.5	Thermoplastic Polyurethane Elastomers (TPUs).....	92
4.6	Polyurethane Processing Equipment.....	93
4.6.1	Profiles	93
5	Sustainability	103
5.1	Carbon Taxation.....	103
5.1.1	Challenges with the Pricing of Carbon Dioxide.....	104
5.1.2	Emissions Trading System Pricing.....	104
5.1.3	Cost-based Approach to Pricing	105
5.1.4	European Competitiveness	105
5.1.5	Consumer Behavior.....	106
5.2	Recycling.....	107
5.2.1	Mechanical Recycling.....	107
5.2.2	Chemical Recycling.....	109
5.3	Incineration	112
6	Process Economics.....	115
6.1	Costing Basis	115
6.1.1	Investment Basis	115
6.1.2	Pricing Basis.....	115
6.2	Cost of Production Estimates	120
6.2.1	Assumptions	120
6.2.2	Flexible Foam Model	122
6.2.3	Molded Flexible Foam Model	123
6.2.4	Rigid Polyisocyanurate Foam Model.....	124
6.2.5	Pour-in-Place Rigid Appliance Foam	125
6.2.6	Microcellular Elastomer Model	126
6.2.7	Summary	127
6.3	Sensitivity Analysis.....	130
6.3.1	Impact of Plant Location.....	130
6.3.2	Impact of Time.....	133
7	Market Applications	135
7.1	Flexible Foams	136
7.2	Semi-rigid Foams	137

7.3	Rigid Foams	137
7.4	Coatings	138
7.5	Adhesives	139
7.6	Elastomers	139
8	Market Analytics	141
8.1	Global Demand	141
8.2	The Americas	146
8.3	Europe, Middle East, and Africa.....	148
8.4	Asia Pacific	152

Appendices

A	Definitions	155
B	Supporting Cost of Production Estimates	158
C	Definitions of Capital Cost Terms Used in Process Economics.....	166
D	Definitions of Operating Costs Terms Used in Process Economics	171
E	TECH Program Title Index (2010-2020)	174
F	References	177

TECHNOLOGY & COSTS

Technoeconomics - Energy & Chemicals (TECH)

The NexantECA Subscriptions' Technoeconomics - Energy & Chemicals (TECH) program is recognized globally as the industry standard source for information relevant to the chemical process and refining industries. Technoeconomics - Energy & Chemicals (TECH) reports are available as a subscription program or on a single report basis.

Contact Details:

Americas:

Marcos Nogueira Cesar, Vice President, Global Products, E&CA: NexantECA Subscriptions
Phone: + 1-914-609-0324, e-mail: mcesar@nexantECA.com

Erica Hill, Client Services Coordinator, E&CA-Products
Phone: + 1-914-609-0386, e-mail: ehill@nexantECA.com

EMEA:

Anna Ibbotson, Director, NexantECA Subscriptions
Phone: +44-207-950-1528, aibbotson@nexantECA.com

Asia:

Chommanad Thammanayakatip, Managing Consultant, Energy & Chemicals Advisory
Phone: +66-2793-4606, email: chommanadt@nexantECA.com

NexantECA (www.nexantECA.com) is a leading management consultancy to the global energy, chemical, and related industries. For over 38 years, NexantECA has helped clients increase business value through assistance in all aspects of business strategy, including business intelligence, project feasibility and implementation, operational improvement, portfolio planning, and growth through M&A activities. NexantECA has its main offices in White Plains (New York), and London (UK), and satellite offices worldwide.
