

MARKETS AND PROFITABILITY

Market Analytics: Olefins Feedstocks – 2023

June 2023

This Report was prepared by NexantECA, the Energy and Chemicals Advisory company ("NexantECA"). Except where specifically stated in this Report, the information contained herein is prepared on the basis of information that is publicly available, and contains no confidential third party technical information to the best knowledge and belief of NexantECA. The information has not been independently verified or otherwise examined to determine its accuracy, completeness or financial feasibility. Neither NexantECA, Subscriber nor any person acting on behalf of either shall have any liabilities for any loss or damage arising from or connected to the use of any information contained in this Report. NexantECA does not represent or warrant that any assumed conditions will come to pass.

The Report is for Subscriber's internal use only and shall be kept strictly confidential. The Report should not be otherwise reproduced, distributed or used without first obtaining prior written consent by NexantECA. Each Subscriber agrees to use reasonable effort to protect the confidential nature of the Report.

Contents

1	Executive Summary	1
2	Introduction	5
2.1	Introduction.....	5
2.2	Olefin Feedstocks.....	6
2.2.1	Methanol.....	6
2.2.2	Ethane	6
2.2.3	Propane and Butane	7
2.2.4	Naphtha and Condensates	8
2.2.5	Gas Oil	8
3	Ethylene	10
3.1	Key Market Developments	10
3.2	Ethylene Supply Base	11
3.3	Ethylene Capacity Development	14
3.3.1	NGLs	20
3.3.2	Methanol to Olefins	22
3.3.3	Recycled/Renewable Feeds	23
3.4	Ethylene Feedstock Development	27
3.5	Ethylene Feedstock Economics	29
4	Propylene	33
4.1	Key Market Developments	33
4.2	Propylene Supply Base	34
4.3	Propylene Feedstock Development	38
5	Butadiene	43
5.1	Key Market Developments	43
5.2	Butadiene Supply Base	44
5.3	Butadiene Feedstock Development	46

Appendices

A	Methodology	48
A.1	Market Dynamics Forecasting Methodology	48
A.1.1	Capacity Availability and Forecasting	48
A.1.2	End-Use Consumption Forecasting	48
A.1.2.1	End-Use Sector Growth	49
A.1.2.2	Penetration (New Application Growth)	49
A.1.2.3	Short-term Influences.....	50
A.1.2.4	Monomer Consumption Forecasting.....	50
A.1.3	Production and Trade Forecasting.....	51

NexantECA partners with clients to help them navigate the big global energy, chemicals and materials issues of tomorrow. We provide independent advice through our consulting, subscriptions and reports, and training businesses using expertise developed in markets, economics and technology through our fifty years of operation. We are entirely dedicated to supporting sustainable development of the industry and provide expert advice with efficiency, speed, and agility.

Disclaimer

This Report was prepared by NexantECA, the Energy and Chemicals Advisory company. Except where specifically stated otherwise in this Report, the information contained here is prepared on the basis of information that is publicly available, and contains no confidential third-party technical information to the best knowledge of NexantECA. Aforesaid information has not been independently verified or otherwise examined to determine its accuracy, completeness or financial feasibility. Neither NexantECA, Client nor any person acting on behalf of either assumes any liabilities with respect to the use of or for damages resulting from the use of any information contained in this Report. NexantECA does not represent or warrant that any assumed conditions will come to pass.
