Market Insights: Carbon Dioxide - 2023

September 2023

This Report was prepared by NexantECA Energy & Chemicals Advisory ("NexantECA"). Except where specifically stated in this Report, the information contained herein is prepared on the basis of information that is publicly available and contains no confidential third party technical information to the best knowledge and belief of NexantECA. The information has not been independently verified or otherwise examined to determine its accuracy, completeness or financial feasibility. Neither NexantECA, Subscriber nor any person acting on behalf of either shall have any liabilities for any loss or damage arising from or connected to the use of any information contained in this Report. NexantECA does not represent or warrant that any assumed conditions will come to pass.

The Report is for Subscriber's internal use only and shall be kept strictly confidential. The Report should not be otherwise reproduced, distributed or used without first obtaining prior written consent by NexantECA. Each Subscriber agrees to use reasonable effort to protect the confidential nature of the Report.

Contents

1	Executive Summary	1
2	Introduction.....	5
2.1	Overview	5
2.2	Carbon Cycle.....	5
2.2.1	Background	5
2.2.2	Historical Perspective.....	5
2.2.3	Global Gross Emissions	6
2.3	Carbon Dioxide (CO ₂).....	10
2.3.1	Properties	10
2.3.2	Sources of CO ₂ supply	10
2.3.3	CO ₂ End Use Applications.....	12
3	Regulatory Framework and Development.....	14
3.1	Introduction.....	14
3.2	Key Organizations	14
3.2.1	UNFCCC	14
3.2.2	IPCC.....	14
3.2.3	IEA.....	15
3.2.4	Global CCS Institute.....	15
3.3	International Policy Framework and Agreements	16
3.3.1	Kyoto Protocol 1997	16
3.3.2	Copenhagen Accord 2009	17
3.3.3	Paris Agreement 2015	17
3.4	Key Policies and Projects by Major Countries	19
3.4.1	China	19
3.4.2	United States.....	22
3.4.3	India.....	26
3.4.4	Russia	27
3.4.5	Japan.....	28
4	CO ₂ Capture and Sequestration (CCS).....	30
4.1	Introduction.....	30
4.2	Key Driver.....	32
4.3	Carbon Capture	33
4.3.1	Technology Overview.....	33
4.3.2	Capture Routes	36
4.3.3	Key Players and Licensors.....	40
4.3.4	Summary Comparison	44
4.4	Carbon Transport	47
4.5	Carbon Storage	48
4.5.1	Depleted Oil and Gas Reservoirs	48
4.5.2	Deep Saline Formations.....	49

4.5.3	Unmineable Deep Coal Seams.....	49
4.5.4	Other Sequestration Options.....	49
4.5.5	How Safe is Carbon Sequestration?	49
4.6	CCS Clusters.....	50
4.7	Carbon Abatement versus Negative Emissions.....	50
5	CO2 Utilization	51
5.1	CO2 End Uses	51
5.2	CO2 Direct Use	51
5.2.1	Enhanced Oil Recovery (EOR)	52
5.2.2	Food and Beverage.....	52
5.2.3	Other End-Uses.....	53
5.3	CO2 Conversion.....	54
5.3.1	Reforming and Reduction	55
5.3.2	Methanol.....	55
5.3.3	Urea.....	56
5.3.4	Carbonates	56
6	CO2 Market Outlook.....	58
6.1	CO2 Supply Overview	58
6.1.1	Asia Pacific excluding China.....	58
6.1.2	China	59
6.1.3	North America	60
6.1.4	South America.....	61
6.1.5	Europe.....	62
6.1.6	Middle East.....	64
6.1.7	Africa	65
6.2	CO2 Demand Outlook	65
6.2.1	Global	65
6.2.2	Asia Pacific excluding China.....	68
6.2.3	China	69
6.2.4	North America	72
6.2.5	South America.....	74
6.2.6	Western Europe	76
6.2.7	Central Europe	79
6.2.8	Eastern Europe	81
6.2.9	Middle East.....	82
6.2.10	Africa	83
7	CO2 Pricing and Cost Competitiveness for CO2 Utilization	85
7.1	CO2 Pricing	85
7.1.1	Overview	85
7.1.2	ETS and Carbon Taxes Development	85
7.2	Cost Competitiveness of CO2 Derived Chemicals	87
7.2.1	Overview	87
7.2.2	Methanol.....	89

	7.2.3	Polycarbonate	90
7.3		Cost Structure and Assumptions.....	91
	7.3.1	Variable Costs	92
	7.3.2	Direct Fixed Costs	95
	7.3.3	Allocated Fixed Costs	96
	7.3.4	Other Considerations	96
8		Conclusions	97
	8.1	Overview	97
	8.2	Market	97
	8.3	Pricing and Cost	99

NexantECA partners with clients to help them navigate the big global energy, chemicals and materials issues of tomorrow. We provide independent advice through our consulting, subscriptions and reports, and training businesses using expertise developed in markets, economics and technology through our fifty years of operation. We are entirely dedicated to supporting sustainable development of the industry and provide expert advice with efficiency, speed, and agility.

Disclaimer

This Report was prepared by NexantECA, the Energy and Chemicals Advisory company. Except where specifically stated otherwise in this Report, the information contained here is prepared on the basis of information that is publicly available and contains no confidential third-party technical information to the best knowledge of NexantECA. Aforesaid information has not been independently verified or otherwise examined to determine its accuracy, completeness or financial feasibility. Neither NexantECA, Client nor any person acting on behalf of either assumes any liabilities with respect to the use of or for damages resulting from the use of any information contained in this Report. NexantECA does not represent or warrant that any assumed conditions will come to pass.
