

# *Glycol Ethers*

01/02S6

*August 2002*

## TABLE OF CONTENTS

|  | Page      |
|--|-----------|
| <b>I SUMMARY</b>                                     | <b>1</b>  |
| A. INTRODUCTION                                      | 1         |
| B. CHEMISTRY   | 2         |
| C. PROCESS DESCRIPTION                               | 3         |
| D. ECONOMICS   | 4         |
| 1. Ethylene Glycol Butyl Ether                       | 4         |
| 2. Propylene Glycol Methyl Ether                     | 5         |
| E. PROPERTIES, APPLICATIONS, AND REGULATORY ISSUES   | 6         |
| 1. Properties  | 6         |
| 2. Applications                                      | 9         |
| 3. Regulatory Issues                                 | 10        |
| F. DEMAND  | 11        |
| <b>II INTRODUCTION</b>                               | <b>14</b> |
| <b>III TECHNOLOGY</b>                                | <b>15</b> |
| A. CHEMISTRY   | 15        |
| B. PROCESS DESCRIPTION                               | 16        |
| <b>IV RECENT DEVELOPMENTS</b>                        | <b>23</b> |
| <b>V ECONOMIC ANALYSIS</b>                           | <b>31</b> |
| A. BASIS   | 31        |
| 1. Pricing Basis                                     | 31        |
| 2. Investment Basis                                  | 32        |
| 3. Cost of Production Basis                          | 32        |
| B. ETHYLENE OXIDE-BASED GLYCOL ETHERS (E-SERIES)     | 33        |
| 1. Ethylene Glycol Butyl Ether                       | 33        |
| 2. Effect of Improved Selectivity                    | 40        |
| 3. Ethylene Glycol Alkyl Ethers – Campaign Operation | 43        |
| C. PROPYLENE OXIDE-BASED GLYCOL ETHERS (P-SERIES)    | 45        |

## TABLE OF CONTENTS (Continued)

|--|------|
| <b>VI COMMERCIAL ANALYSIS</b>                      | 54   |
| A. PROPERTIES, APPLICATIONS, AND REGULATORY ISSUES | 54   |
| 1. Properties                                      | 54   |
| 2. Applications                                    | 59   |
| 3. Regulatory Issues                               | 63   |
| (a) United States                                  | 64   |
| (b) Western Europe                                 | 66   |
| B. SUPPLY  | 68   |
| 1. United States                                   | 68   |
| 2. Western Europe                                  | 69   |
| 3. Japan   | 70   |
| C. DEMAND  | 71   |
| <b>REFERENCES</b>                                  | 74   |
| <b>APPENDIX I</b>                                  | 75   |
| <b>APPENDIX II</b>                                 | 82   |
| <b>PERP TITLE INDEX</b>                            | 87   |

## TABLES

|               |  | Page  |
|---------------|--|-------|
| Table I.A.1   | Ethylene Glycol and Propylene Glycol Ethers  | 1     |
| Table I.E.1   | Physical Properties of Selected Glycol Ethers  | 7     |
| Table II.1    | Ethylene Glycol and Propylene Glycol Ethers  | 14    |
| Table III.B.1 | Typical Feedstock Specifications – Scientific Design Process   | 19-20 |
| Table III.B.2 | Typical Product Specifications – Scientific Design Process   | 21-22 |
| Table IV.1    | Summary of Selected Patents  | 24    |
| Table IV.2    | Tabulation of Results from Yu Kong Patent (JP 07206744)  | 27    |
| Table IV.3    | Tabulation of Results from Blachownia/Poznan Paper   | 28    |
| Table V.A.1   | Material and Utility Prices  | 31    |
| Table V.B.1   | Cost of Production Estimate for: Ethylene Glycol Butyl Ether<br>Process: Sodium Hydroxide Homogeneous Catalyst   | 35    |
| Table V.B.2   | Cost of Production Estimate for: Ethylene Glycol Butyl Ether<br>Process: Cesium-Substituted Zeolite Beta Heterogeneous Catalyst                        | 41    |
| Table V.B.3   | Cost of Production Estimate for: Ethylene Glycol Alkyl Ethers<br>Process: Scientific Design, Liq-Phase, KOH Cat., Campaign Oper.                       | 44    |
| Table V.B.4   | Product Slate from Campaign Operation  | 43    |
| Table V.C.1   | Cost of Production Estimate for: Propylene Glycol Methyl Ether<br>Process: Sodium Hydroxide Homogeneous Catalyst                                       | 46    |
| Table V.C.2   | Cost of Production Estimate for: Propylene Glycol Methyl Ether<br>Process: Quaternary-Ammonium-Modified Anion-Exchange<br>Resin Heterogeneous Catalyst | 51    |
| Table VI.A.1  | Physical Properties of Selected Glycol Ethers  | 55    |
| Table VI.B.1  | U.S. Glycol Ether Capacity by Producer, 2001   | 68    |
| Table VI.B.2  | West European Glycol Ether Capacity by Producer, 2001  | 69    |
| Table VI.B.3  | Japanese Glycol Ether Capacity by Producer, 2001   | 70    |

## TABLES

### (Continued)

|                  | <b>Page</b>   |
|------------------|---|
| Appendix Tables: |   |
| Table A.1        | Physical Properties of Ethylene Glycol Butyl Ether        |
| Table A.2        | Sales Specification for Dow Ethylene Glycol Butyl Ether   |
| Table A.3        | Physical Properties of Diethylene Glycol Butyl Ether      |
| Table A.4        | Physical Properties of Propylene Glycol Methyl Ether      |
| Table A.5        | Sales Specification for Dow Propylene Glycol Methyl Ether |
| Table A.6        | Physical Properties of Dipropylene Glycol Methyl Ether    |

## FIGURES

|                |   | Page |
|----------------|---|------|
| Figure I.E.1   | kb Values of Selected Solvents  | 8    |
| Figure I.E.2   | Solvent Solubility Plot   | 8    |
| Figure I.E.3   | Principal Applications of E-Series Glycol Ethers, 2001                | 9    |
| Figure I.E.4   | Principal End-Use Applications of P-Series Glycol Ethers, 2001        | 10   |
| Figure I.F.1   | Triregional Consumption of Glycol Ethers, 2001                        | 11   |
| Figure I.F.2   | Estimated U.S. Glycol Ethers Product Mix, 2001                        | 12   |
| Figure I.F.3   | Estimated West European Glycol Ethers Product Mix, 2001               | 13   |
