Section	Page
1 Executive Summary	1
1.1 BACKGROUND	1
1.2 PRODUCTION TECHNOLOGY	1
1.2.1 SBR	1
1.2.2 PBR	3
1.3 TECHNICAL DEVELOPMENTS	5
1.4 PROCESS ECONOMICS	6
1.5 MARKETS	7
1.5.1 SBR	7
1.5.2 PBR	8
1.5.3 General Market Issues	9
1.5.4 Supply – Global Overview	10
2 Introduction	11
3 Commercial Technology	12
3.1 STYRENE BUTADIENE RUBBER	12
3.1.1 Introduction	12
3.1.2 Emulsion Polymerization	13
3.1.3 Solution Polymerization	15
3.2 POLYBUTADIENE RUBBER (BR)	23
3.2.1 Introduction	23
3.2.2 Production Process: High Cis BR	24
3.2.3 Production Process: Low Cis BR	27
3.3 PROCESS DESCRIPTION	28
3.3.1 Introduction	28
3.3.2 Process Design	28
3.3.3 Integrated Commercial Technology for Solution Styrene-Butadiene Rubber (sSBR)	28
3.3.4 Raw Materials and Utility Consumption	30
3.3.5 The Integrated Commercial Technology of Low Cis Polybutadiene Rubber	31

3.3.6	The Main Features of the Technology	31
3.3.7	The Specification of LCBR for Plastics.....	32
4	Technical Developments	33
4.1	END USE DEVELOPMENTS	33
4.1.1	Tires	33
4.2	TIRE RUBBER DEVELOPMENTS	36
5	Process Economics	39
6	Commercial Analysis	45
6.1	MARKETS	45
6.1.1	SBR	45
6.1.2	PBR	46
6.1.3	General Market Issues.....	47
6.2	SUPPLY – GLOBAL OVERVIEW	48
6.3	NORTH AMERICA	49
6.3.1	Supply	49
6.3.2	Supply/Demand Outlook	50
6.4	WESTERN EUROPE	52
6.4.1	Supply	52
6.4.2	Supply/Demand Outlook	53
6.5	JAPAN	55
6.5.1	Supply	55
6.5.2	Supply/Demand Outlook	56
6.6	ASIA	57
6.6.1	Supply	57
6.6.2	Supply/Demand Outlook	59
7	References	60
Appendix		Page
A	Standard Definition of Cost Elements	A-1
B	PERP Program Title Index	B-1

Figure	Page
1.1 Cash Cost of Production of SBR and BR Rubbers	6
1.2 Global SBR Demand by End Use, 2002	7
1.3 Global PBR Consumption by End Use, 2002	8
1.4 Natural vs Synthetic Elastomer Raw Material Price Development	9
3.1 Styrene-Butadiene Rubber Cold Emulsion Process.....	16
3.2 Styrene-Butadiene Rubber (SBR) Solution Process	17
3.3 Relationship Between Bound Monomer Content and Monomer Concentration	20
3.4 Polybutadiene Rubber Process.....	25
5.1 Cash Cost of Production of SBR and BR Rubbers	44
6.1 Global SBR Demand by End Use, 2002	45
6.2 Global PBR Consumption by End Use, 2002	46
6.3 Natural vs Synthetic Elastomer Raw Material Price Development	47
6.4 Global SBR Capacity by Producers, 2003	48
6.5 Global PBR Capacity by Producers, 2003	48

Table	Page
1.1 Typical Composition of Polybutadiene: Different Catalyst Systems	3
3.1 Typical Cold Emulsion SBR Formulation.....	14
3.2 Typical Composition of Polybutadiene: Different Catalyst Systems	23
3.3 Physical Properties of Non-Oil Extended sSBR.....	30
3.4 Physical Properties of Oil Extended sSBR	30
4.1 The Characteristics of Various Polymer for Tire Manufacturers	34
4.2 Non-Productive Mix Stages.....	37
5.1 Cost of Production Estimate for Solution SBR Process: Solution.....	40
5.2 Cost of Production Estimate for Polybutadiene Rubber Process: High Cis	41
5.3 Cost of Production Estimate for Emulsion SBR 1500 (Solid) Process: Emulsion	42
5.4 Cost of Production Estimate for Emulsion SBR 1712 (Oil Filled) Process: Emulsion	43
6.1 North American SBR Production Capacity, 2003	49

6.2	North American PBR Production Capacity, 2003	50
6.3	North American SBR Supply/Demand.....	50
6.4	North American PBR Supply/Demand.....	51
6.5	West European SBR Production Capacity, 2003.....	52
6.6	West European PBR Production Capacity, 2003.....	53
6.7	West European SBR Supply/Demand.....	54
6.8	West European PBR Supply/Demand.....	54
6.9	Japanese SBR Production Capacity, 2003.....	55
6.10	Japanese PBR Production Capacity, 2003.....	55
6.11	Japanese SBR Supply/Demand.....	56
6.12	Japanese BR Supply/Demand.....	56
6.13	Asian SBR Production Capacity, 2003.....	57
6.14	Asian PBR Production Capacity, 2003.....	58
6.15	Asian SBR Supply/Demand.....	59
6.16	Asian PBR Supply/Demand.....	59
