| Section                                                                   | Page      |
|---------------------------------------------------------------------------|-----------|
| <b>1 Executive Summary .....</b>                                          | <b>1</b>  |
| 1.1 INTRODUCTION .....                                                    | 1         |
| 1.2 TECHNOLOGY REVIEW .....                                               | 3         |
| 1.3 COMMERCIAL OVERVIEW .....                                             | 5         |
| 1.3.1 United States .....                                                 | 5         |
| 1.3.2 Western Europe.....                                                 | 6         |
| 1.3.3 Asia Pacific .....                                                  | 8         |
| <b>2 Technology Review .....</b>                                          | <b>10</b> |
| 2.1 INTRODUCTION .....                                                    | 10        |
| 2.2 GAS PHASE PROCESSES.....                                              | 15        |
| 2.2.1 INEOS Technologies (INNOVENE G).....                                | 15        |
| 2.2.2 LyondellBasell (SPHERILENE) .....                                   | 21        |
| 2.2.3 Mitsui Chemicals (EVOLUE).....                                      | 30        |
| 2.2.4 Univation Technologies (UNIPOL™ PE Process).....                    | 35        |
| 2.2.5 Westlake (formerly Voridian/Eastman) (ENERGX) .....                 | 47        |
| 2.3 SOLUTION PROCESSES.....                                               | 55        |
| 2.3.1 Dow Chemical (DOWLEX) .....                                         | 55        |
| 2.3.2 DSM/Stamcarbon (COMPACT).....                                       | 59        |
| 2.3.3 NOVA Chemicals (SCLAIRTECH™ Advanced SCLAIRTECH™ Technologies)..... | 64        |
| 2.4 SLURRY LOOP (SWING) PROCESSES.....                                    | 74        |
| 2.4.1 Borealis (BORSTAR) .....                                            | 74        |
| 2.4.2 Chevron Phillips.....                                               | 82        |
| <b>3 Economic Analysis .....</b>                                          | <b>89</b> |
| 3.1 RAW MATERIALS AND UTILITIES.....                                      | 89        |
| 3.2 CAPITAL COSTS .....                                                   | 90        |
| 3.3 TECHNOLOGY ASSESSMENT.....                                            | 91        |
| 3.3.1 Conventional Technology .....                                       | 91        |
| 3.3.2 Metallocene/Single-Site and Easy Processing Technology .....        | 93        |
| 3.3.3 LLDPE versus LDPE .....                                             | 96        |

|          |                                                                         |            |
|----------|-------------------------------------------------------------------------|------------|
| 3.4      | ECONOMIC BASIS .....                                                    | 100        |
| 3.4.1    | Capital and Operating Costs .....                                       | 100        |
| 3.4.2    | Investment Costs .....                                                  | 101        |
| <b>4</b> | <b>Commercial Analysis .....</b>                                        | <b>110</b> |
| 4.1      | UNITED STATES .....                                                     | 110        |
| 4.1.1    | Demand .....                                                            | 110        |
| 4.1.2    | Supply .....                                                            | 111        |
| 4.1.3    | Supply/Demand and Trade .....                                           | 111        |
| 4.2      | WESTERN EUROPE .....                                                    | 112        |
| 4.2.1    | Demand .....                                                            | 112        |
| 4.2.2    | Supply .....                                                            | 113        |
| 4.2.3    | Supply/Demand and Trade .....                                           | 115        |
| 4.3      | ASIA PACIFIC .....                                                      | 115        |
| 4.3.1    | Demand .....                                                            | 115        |
| 4.3.2    | Supply .....                                                            | 116        |
| 4.3.3    | Supply/Demand and Trade .....                                           | 119        |
| Appendix |                                                                         | Page       |
| <b>A</b> | <b>Cost of Production Estimates - Conventional .....</b>                | <b>A-1</b> |
| <b>B</b> | <b>Cost of Production Estimates – Metallocene/Easy Processing .....</b> | <b>B-1</b> |
| <b>C</b> | <b>PERP Program Title Index .....</b>                                   | <b>C-1</b> |

| Figure                                                                         | Page |
|--------------------------------------------------------------------------------|------|
| 1.1 Installed LLDPE Capacity by Technology, 2007 .....                         | 1    |
| 1.2 Installed LLDPE Capacity by Process, 2007 .....                            | 2    |
| 1.3 Cost of Production Comparison for Conventional LLDPE .....                 | 4    |
| 1.4 Cost of Production Summary for Metallocene and Easy Processing LLDPE ..... | 4    |
| 1.5 U.S. LLDPE Demand by End Use, 2007 .....                                   | 5    |
| 1.6 West European LLDPE Demand by End Use, 2007 .....                          | 7    |
| 1.7 Asian Pacific LLDPE Demand by End Use, 2007 .....                          | 9    |
| 2.1 LLDPE and Swing Technology Competition by Process Type.....                | 13   |
| 2.2 Installed LLDPE Capacity by Technology, 2007 .....                         | 14   |
| 2.3 Installed LLDPE Capacity by Process, 2007 .....                            | 14   |
| 2.4 INNOVENE G Fluidized Bed Polyethylene Process, Reactor System .....        | 20   |
| 2.5 SPHERILENE Fluidized Bed LLDPE Process, First Stage Reactor System.....    | 27   |
| 2.6 SPHERILENE Fluidized Bed LLDPE Process, Second Stage Reactor System .....  | 28   |
| 2.7 EVOLUE Fluidized Bed LLDPE Process, First Stage Reactor System.....        | 32   |
| 2.8 EVOLUE Fluidized Bed LLDPE Process, Second Stage Reactor System .....      | 33   |
| 2.9 UNIPOL Fluidized Bed Polyethylene Process, Reactor System .....            | 44   |
| 2.10 UNIPOL Polyethylene Process, Vent Recovery System.....                    | 45   |
| 2.11 MXSTEN Resin Properties for Film Sealant Layer .....                      | 50   |
| 2.12 MXSTEN Resin Properties for Film Puncture Layer .....                     | 51   |
| 2.13 Balance of Properties with HIFOR XTREME.....                              | 52   |
| 2.14 DOWLEX Solution LLDPE Process, Reaction and Solvent Recovery .....        | 58   |
| 2.15 COMPACT Solution LLDPE Process, Reaction and Solvent Recovery .....       | 62   |
| 2.16 SCLAIRTECH Solution Polyethylene Technology, Reactor System .....         | 70   |
| 2.17 Control of Molecular Weight Distribution .....                            | 71   |
| 2.18 BORSTAR Polyethylene Process, Feed and First Polymerization.....          | 78   |
| 2.19 BORSTAR Polyethylene Process, Second Reactor and Recovery System.....     | 79   |
| 2.20 Polymer Solubility and Supercritical Conditions .....                     | 80   |
| 2.21 Chevron Phillips Polyethylene Process, Reactor System .....               | 86   |
| 3.1 Steel Producer Price Indexes .....                                         | 90   |

|     |                                                                            |     |
|-----|----------------------------------------------------------------------------|-----|
| 3.2 | Comparative Cost of Production for Conventional LLDPE .....                | 93  |
| 3.3 | Cost of Production Summary for Metallocene and Easy Processing LLDPE ..... | 96  |
| 3.4 | Typical Pelletizing Process .....                                          | 103 |
| 3.5 | Typical Pellet Storage, Packaging, and Handling.....                       | 106 |
| 4.1 | U.S. LLDPE Demand by End Use, 2007 .....                                   | 110 |
| 4.2 | West European LLDPE Demand by End Use, 2007 .....                          | 113 |
| 4.3 | Asian Pacific LLDPE Demand by End Use, 2007 .....                          | 116 |

| Table |                                                                                                       | Page |
|-------|-------------------------------------------------------------------------------------------------------|------|
